

BADDI UNIVERSITY OF EMERGING SCIENCES AND TECHNOLOGY

4.1.1a The Institution has adequate facilities for teaching -learning. viz., classrooms, laboratories, computing equipment etc.

Response:

The education institution complies to adequate availability and maximum utilization of available infrastructure which is critically linked to the vision of the university –for creating and imparting knowledge to prepare future ready professionals who are going to make a positive impact on the society . University strives ‘to create a conducive and a secure environment of excellence in education’ through technologically advanced pedagogical tools.

At the beginning of the academic year need assessment for replacement / up-gradation / addition of the existing infrastructure is carried out based on the suggestions from Heads of the departments, lab technicians and system administrator after reviewing course requirements, computer-student ratio, budget constraints, working condition of the existing equipment and also students’ grievances. The Time Table committee plans ahead for all requirements regarding classrooms, laboratories, furniture and other equipment.

- Optimal deployment of infrastructure is ensured through conducting workshops/awareness programs/training programs for faculty on the use of new technology.
- Effective utilization of infrastructure is ensured through appointment of adequate and well qualified lab technicians/system administrator.
- The optimal utilization is ensured through encouraging innovative teaching –learning practices and pre placement trainings.
- The available physical infrastructure is optimally utilized beyond regular college hours, to conduct certificate courses, co-curricular activities/extra -curricular activities, parent teacher meetings, Campus Recruitment Training classes, campus recruitments, meetings, seminars, conferences etc.,.

INTRODUCTION

- With the increasing use of non-linear loads and the complexity of the network, the power system network face challenges to deliver quality power to the consumers. Electric power has been delivered is affected by many factors at the distribution network which has to be compensated to improve the quality and quantity of power been delivered. This chapter discusses the power quality. Its necessity, power quality issues and consequences.

SPES LH II

4.1.1c:- *The Institute has adequate facilities for activities, Yoga, Games (Indoor, outdoor sports)*

Response:

Sports play a pivotal role in shaping one's personality and maintaining good health. University has specially developed a sports environment that matches international standards and gives a truly global experience to all our students. All of which is provided to them on the campus.

There are multiple sport facilities to keep our students engaged and physically fit.

Basketball

Being one of the most popular sports in institutes, basketball is played by a large number of students in the evenings. We have a dedicated basketball coach and a well equipped sports department to help the budding players in every way they can.

Football

The university campus has a football ground with lush green grass for the most widely played and followed sport in the world. An experienced football coach will train the team with all the required equipments in the evenings.

Cricket

A religion to most people in India than a sport and for the students of the institute is no different. The infrastructure related to the game includes a cricket ground with natural turf pitches and synthetic practice pitches.

SPORTS ACTIVITIES

1. Outdoor and Indoor Sports Facilities: Every student is encouraged to take active part in at least one outdoor activity. Institute has set up facilities/grounds for Cricket, Football, Basketball, Volleyball, Table-Tennis, Badminton, Chess, Carom, etc., and league matches are encouraged. Institute also plans an inter-college sports tournaments to develop a spirit of healthy competition.

2. Gymnasium: In order to ensure a sound body and mind, students are given special attention on health and fitness. A modern gym, with all the latest gadgets has been set up in the hostels for boys as well as girls

3. Adventure: Taking advantage of the natural beauty of the surrounding Shivalik hills, an 'adventure club' has been formed by students, who organize camps for nature-walks, trekking and hiking.

4. While games, sports and athletics directly contribute to physical development of students, other co-curricular activities also indirectly contribute to it. These activities provide a useful channel for the growth and development of the body.

Inter University Sports Meet

Every year BUEST organizes LAKSHAY- a 2 day inter university Sports meet. The unfurling of "Sangathan Flag" marks the beginning of the glittering ceremony which includes an impressive march past, various sports events, like basketball, volleyball, football, cricket events with institutes vying to clinch the much coveted trophies. Students of various universities also present a colorful cultural programme at the concluding ceremony of Lakshay.
